### **DETAILED ACTION**

In response to the amendment filed 2/12/2004 all the amendments to the specification and the claims have been entered and the action follows:

1. Applicant's amendments and arguments, see pages 12 and 13, filed 2/12/2004, with respect to independent claim 11 have been fully considered and are persuasive. The rejection under 35 USC 103 of independent claim 11 has been withdrawn.

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-2, 5-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bailey et al (US 4924087).

With respect to the claims 1-2, 5-10 the rejections are respectfully maintained and incorporated by references as set forth in the prior office action (paper #5).

Art Unit: 2623

3. Claims 3 and 4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bailey in view of Norton (US 4139306).

With respect to the claims 3-4 the rejections are respectfully maintained and incorporated by references as set forth in the prior office action (paper #5).

***Allowable Subject Matter***

4. Claims 11-15, 17-18 and 20 are allowed.

5. Claim 19 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

6. Applicant's arguments filed 2/12/2004 have been fully considered but they are not persuasive. Applicant argues that the reference fails to disclose an image obtained by the camera (see page 10 last paragraph); and the optical fiber is not imaging entire surface (see page 11 lines 3-4). Examiner disagrees and would like to point out the claimed limitations are given their reasonable broadest interpretations. And, the reference Bailey discloses a camera for imaging the optical fiber for inspection see figure 6, numerical 270, and the fiber travels between two spools while getting inspected

Art Unit: 2623

see figure 6, numerical 222, 228, 270 and col. 4, lines 58-66 and col. 5, lines 4-8, the fiber optic travels between the reels 222 and 228 and the camera takes the image of the fiber optic, as required by the claims.

### ***Conclusion***

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
